

NEWS RELEASE

Haseltine Lake to exhibit at flagship life science conference, BioWales 2017

Stand 6 | 7-8 March 2017 | Wales Millennium Centre, Cardiff

Major European patent and trade mark attorney firm, Haseltine Lake, announces it is exhibiting for the first time at flagship life science conference, BioWales, hosted at the Wales Millennium Centre in Cardiff, next month on stand six.

Returning for its 15th year,

BioWales is the key event for the life sciences sector in Wales and

is one of the UK's leading life

science conferences. For 2017, the event focuses on "Health and Wealth", discussing the unique opportunities in Cell Therapy, Regenerative Medicine and Medical Technology, and how technology is empowering patients and professionals through better services and information on a global scale.

The life sciences sector is a key area of expertise for Haseltine Lake. The firm has a team of expert patent attorneys who all handle a wide variety of life science technologies, working with leading universities and businesses ranging from start-ups to multi-national organisations.

Commenting on Haseltine Lake's attendance at the conference, Isobel Finnie, biotech expert and Partner and UK and European Patent Attorney at the firm, says, "We're very excited to be exhibiting at the conference for the first time. It's a leading industry event and we're looking forward to seeing what's on offer in the sector, and making valuable connections with other life science and biotechnology professionals."

Partners, [Alex Rogers](#) and [Isobel Finnie](#), along with Associate, [Catherine Williamson](#), from Haseltine Lake will be representing the firm at the show, and would be delighted to meet with

clients and contacts on the stand: Stand 6. Alex will be on the stand and happy to talk to delegates about general IP queries, and Isobel and Catherine will be available on a private 1:1 partnering basis to discuss securing valuable patent protection, developing and implementing robust IP strategies, and any specific challenging IP issues you have encountered. The partnering can be organised through the exhibition portal.

Isobel and Catherine have extensive experience in the biotechnology and life sciences sector, and Alex specialises in the chemistry, pharma and diagnostics industries.

The two-day conference brings together leading industry experts, life science investors and international networks, focusing on the interaction between business, academia and healthcare. Attendees from the 2016 event included global companies, innovative SMEs, VCs, NHS health boards, universities, international networks and business support organisations.

The Haseltine Lake team will also attend BioWales' annual drinks reception and Gala dinner on Tuesday 7 March 2017.
